## Career Goals

I am a passionate and adaptable software developer specializing in full-stack web development. My goal is to design and implement innovative, user-centered, and scalable solutions that deliver measurable business value. With a strong foundation in modern frameworks like React, Node.js, and Next.js, I am skilled in creating efficient and reliable applications. I thrive in collaborative environments where teamwork, problem-solving, and agile methodologies drive success. In the future, I aim to deepen my expertise in DevOps and other related fields to better understand artificial intelligence and contribute to impactful projects that shape the future of technology.
